Dear Salutation 2,

Reline was pregnant and afraid. She worried: **What will happen to my baby, and my family, if I get COVID-19?**

And as Dr. Bien-Aimé desperately tried to lower 15-year-old Muberlie's fever, she feared: **will we lose her to the pandemic?**

Our staff are working night and day to treat thousands of patients like Reline and Muberlie.

Will you make a gift today to ensure they can continue to provide care to all who need it? Any gift you make will be match by a generous donor, doubling your impact.

I know that like us, you have feared for your family's health this year. The COVID-19 crisis has turned all of our lives upside down, and continues to cause uncertainty and heartache.

However, donors like you have sustained us throughout the challenges of 2020. You provided the vital support we needed to treat more than 100,000 patients across St. Boniface Hospital while safely caring for over 200 COVID-19 patients. You helped clinicians like Dr. Bien-Aimé care for hundreds of fragile infants in our NICU, perform crucial surgeries, and provide lifesaving emergency care. **You helped us save lives.**

Reline smiles at her baby

“St. Boniface is really our hearts. We felt like we had people standing behind us, supporting us. They really cared about us.”

Dr. Mirielle Bien-Aimé, Head of Emergency Medicine at St. Boniface Hospital

As the year draws to a close, more patients than ever are turning to us for the care they deserve.

Clinicians like Dr. Bien-Aimé are saving lives every day.

OVER ▶

Can we continue to count on your support, in this season of giving?

We will not allow the pandemic or political uncertainty to stop us from treating every patient who comes to our doors. We will provide HIV patients their medication and we will nurse malnourished children back to health no matter what. With good health, they can get an education, find meaningful work, and lift themselves and their communities higher.

Will you make a gift today to ensure that we can help our patients thrive?

Your gift—of any size—will help us continue to combat the pandemic and provide the quality medical care our patients deserve. **Will you help us save lives?**

On behalf of all of our staff and patients at Health Equity International/St. Boniface Hospital, thank you for continuing to stand with us. We hope you and your loved ones stay safe and well during these unprecedented times.

Kenbe fem,

Conor and Rachel
