*Over 115 Years  
of Tradition*

*For over 115 years,  
our College has  
been a doorway  
to knowledge and  
opportunity.*

May 2018

We look out into the world, and we see it: constant change. While Fisher College embraces positive change, we also strive to examine our past and retain our many fine traditions, the ones you know and cherish. Chief among these traditions is our constant focus on the well-being and education of each and every student.

For over 115 years, our College has been a doorway to knowledge and opportunity. Through personalized learning that includes one-on-one faculty attention, student mentoring, tutoring, and athletics, everything we do focuses on helping our students become effective individuals and committed and generous citizens. Our reward lies in seeing each Fisher graduate complete his or her journey—the journey to success and the start of a more vibrant, secure future.

That is why I am reaching out to you today. Please reflect on all the moments when Fisher College has made a positive difference in your life. Think on the past, on your experiences and friendships, and help us support a new generation of Falcons to be a part of our educational tradition. Your support will allow us to continue to provide our students with the strong professional preparation that comes not just from a classroom education, but from the diverse and enriching sets of experiences that mark a Fisher education.

As things change more and more, your support will allow us to keep providing what is most important to all of us: Fisher College's dedication to improving students' lives.

Thank you in advance for your financial support.

Most sincerely,

Dr. Alan Ray  
President

*Help us support a  
new generation of  
Falcons to be part  
of our educational  
tradition.*
